OUR STORY

Door began work in sign language Bible translation in 2006. We have worked with teams from 16 language groups, with more translation projects beginning each year. The goal is that, one day soon, every Deaf person will have access to God's life-changing word in his or her heart sign language. Door believes that the best people to reach Deaf for Christ are Deaf believers. Door began church planting among Deaf communities in 2005, training pairs of Deaf leaders to plant churches that are Deaf-led, reproducible, and sustainable.

OUR VISION

Every Deaf person transformed by knowing, following and serving God.
